

Q005

1) La firma digitale

2) Il Comune di Trieste intende riprogettare il portale di accesso agli strumenti di pianificazione urbanistica on line.

Come esperto informatico del team multidisciplinare di progetto illustri il contributo che ritiene di dare al team in una riunione di kick off.

3) Read and translate the following text:

The text book example application of proof of work is preventing e-mail spam: if the mail protocol required a proof of work to be submitted along with each sent email, regular emails with few recipients would proceed nearly unaffected, but mass diffusion to thousand of recipients would require large amounts of computational power (or a very long time), placing disincentives for spam producers.
